

STARTER MOTOR CHARITY

Your Board has set aside a financial reserve specifically to encourage young drivers to enjoy and participate in classic motoring in general and Alvis cars in particular.

For which purpose a grant of £1,000 has been made to the Registered Charity 'Starter Motor'.

The AOC is the first single marque car club to financially support 'Starter Motor' and hope that this will be the beginning of a long relationship.

Charitable Aims

Our passion is to see the next generation of young people driving, maintaining, and enjoying historic cars.

We know that if nothing is done, the world of classic motoring will begin to change and even disappear. The car world is undergoing seismic technical changes, attitudes to driving and the ambition to own a car, let alone a classic, is changing too.

We believe our old car world can provide a real haven in the digital age: enjoyment adventure and community. It is a place to belong, where friendship, common interest and mechanical fun are self-evident, where things are repaired and not thrown away. Starter Motor is determined to ensure a big welcome to the historic motoring community for young people by supporting them in their ambitions and promoting access to classic cars.

Starter Motor is a Charity based at Bicester Heritage in Oxfordshire.

How can you help?

Do you have an Alvis which you could loan to this Charity?

(N.B. There will be a proper Loan Agreement such that the car will be maintained, insured and serviced whilst being driven, and at the termination of the agreement handed back in at least as good condition as at the inception).

If you think that you have a suitable car or would like to learn more please contact: -

David Withers – Chief Executive Starter Motor
